EXPLANATORY NOTE.

REVISED ESTIMATE FOR 1944-45 AND BUDGET ESTIMATE FOR 1945--1946.

RECEIPTS. The General account ordinary opens on 1-4-1944 with a balance of Rs.77,746 against Rs.57,120 provided in the original budget for 1944-45. The Government, while reviewing the budget for 1944-45, have ordered certain alterations in the budget and these have been duly carried out in the revised budget for the year.

I. General Taxation - The gross receipts under general taxation & Miscellaneous Revenue are estimated at Rs.1,99,620 in the revised estimate for 1944-45 as against Rs.1,75,450 estimated in the original budget. The receipts under this head are expected to be Rs.1,96,790 during the year 1945-46. The increase is due to the fact that (1) the collection of current property tax during the previous year did not reach the expected percentage with the result that about Rs.19,000 remained uncollected and the same is expected to be collected during the current year, (2) General revision of property tax assessment lists & (3) the increased compensation sanctioned for the loss of income under profession tax. It is estimated that 80 % of the arrears and 98 % of the current will be collected during the current year and 73 % and 98% respectively during the year 1945-46.

2. Management - The income under this head is expected to be Rs. 370 and 200 for 1944-45 and 1945-46.

3. Communication - The total receipts are estimated at Rs.42,210 for 1944-45 as against the original provision of Rs.33,760 For the year 1945-46, the receipts are expected to be Rs.36,100. Th increase in receipts during the current year is due to the enhanced contribution sanctioned by Government under Motor Vehicles Taxation Act. The credit for Rs.24,109 taken during the current year includes a sum of Rs.5,339 being the arrears for the previous years. Credit has been taken only for Rs.18,760 as compensation in the budget for 1945-46. A sum of Rs. 3,280 has been received as Government grant for Trunk roads during current year. This includes a sum of Rs.230/- being the arrears and Rs.623; the additional enhanced 25 % grant sanctioned for current year only.

As usual credit has been taken for Rs.4,430 in both the years being compensation for loss of income under Motor license fee.

The receipts from the Travellers Bungalow (Rest House) is expected to be Rs.350/- during each of the years.

4. Education other than Elementary. The income under this head is under Library. Government have sanctioned a grant of Rs.180 for 1944-45 and a similar provision has been made for 45-46. The total receipts under this head will be Rs.220 during each of the years.

5. Public Health: - The estimated receipts for 1944-45 under this head is Rs.20,450 as against Rs.18,070 provided in the original budget. The main sources of income under this head are (1) scavenging tax (2) Fines under Food Adulteration Act & (3) Grant under Maternity & Childwelfare. The increased anticipated in the scavenging tax is due to the same reason as noted under General Tax & Miscellaneous revenue. The receipts during 1945-46 are estimated at Rs.20,630.

6. Remunerative Enterprises. The total revised receipts under this head during the year 1944-45 is estimated at Rs.43,280 as against Rs.39,380 provided in the original budget. The increase is mainly under license fees and market fees. The receipt during 1945-46 is estimated at Rs.43,470/-

The contribution

The contribution from General Revenue to capital account and other accounts are given below:-

	1944-1945 Revised Estimate. Rs	1945-1946 Budget Estimate. Rs
Total receipt under General account - - -	306,150	297,420
Amount transferred to Capital	5,000	15,000
Elementary Edn.account(Ordi)	38,300	43,000
Water supply & Drainage account(Ordinary) - -	11,030	5,850
Elementary Education capital		2,500
T o t a l :-	Rs. 543 54,330	66,350
Net receipts under A.General account.	251,820	231,070

Capital receipts. The receipts under A General account - capital are expected to be Rs.11,280 as against a provision of Rs.100 for 1944-45. The increase is due to the fact that a sum of Rs.14,900 has been received from Government being the compensation in respect of lorries requisitioned by them. A sum of Rs.3,500 has been provided towards refund of balance amount of loan taken from Government.

Expenditure - Ordinary.

MANAGEMENT. The revised estimate under this head is Rs.35,860 as against Rs.41,570 provided in the original budget.The fall in the expenditure is mainly due to the fact that the additional staff proposed to be entertained has not been actually employed. Provision is made for payment of dearness allowance at Rs.10 & 13 for both the years. The estimated expenditure under this head will be Rs.37,140/- for the year 1945-1946.

COMMUNICATION. Provision in the revised budget - 1944-45 is made to the extent of Rs.64,850 as against Rs.60,360 provided in the original budget. The increase is mainly under road maintenance of 2nd class roads and pay of Municipal Engineer. The expenditure during the year 1945-46 is estimated at Rs.67,800. Adequate provision has been made for maintenance of roads for 1945-46 also.

3. Education other than Elementary. Contributions to the extent noted below are proposed to be paid.

	Revised budget 1944-45 Rs	Budget for 1945- 1946 Rs
1.Depressed class Mission.	150	150
2.Ishwarananda Sevashrem	500	500
3.Harijan Seva Sangha	300	300
4.Industrial Museum(Rs.240 for 43-44 & Rs.300 for 44-45)	540	300
5.Sri Shradhananda Anathashram	180	180
6.Muslim Girls Edn.Association.	180	180
7.Treasurer Canara High School.	180	180
Total:	2030	1790

A provision of Rs.3,000 & 300 is made to meet the expenditure under Public Library and Radio respectively during each of the years 1944-45 and 1945-46.

Public Health.

establishment is already under-manned. The following are the unexpected items of expenditure exceeding the original budget allotment for 1944-45.

	Rs
Complete remodelling of the Webster market.	3,000
do Jeppu Market	2,300
which collapsed owing to a storm	
Additional accommodation for Flower market.	2,800
Repairing drains in Mukhyaprana temple road.	5,950
do Falnir drain.	950

The ordinary receipts exceed ordinary expenditure in the revised estimate by Rs.2,150/- so the orders of Government in so far as they relate to the budget for 1944-45 are in a way complied with.

The dearness allowance alone aggregate Rs.62,000 for 1944-45 and Rs.69,500 for 1945-46. It is obvious that this makes a deep in road into the finances of the council.

~~Elementary Education~~ In the budget for 1945-46 only the barest working expenditure has been included and this works out to about Rs.12,000/-in excess of the receipts which has been carefully budgeted. Merely for equalizing expenditure to the receipts without regard to future improvements the percentage of property tax will have to be increased by 1/2% per half year which can be appropriately done under scavenging tax.

The council has also passed a resolution to undertake a resurvey of the town with a view to pave the way to formulate the water supply and drainage schemes. The re-survey is estimated to cost Rs.77,000 and the council has resolved to meet this expenditure by diversion from earmarked funds and from loans to be applied for from Government. It is therefore desirable that sufficient surplus in the general account is provided to meet this liability.

The office accommodation is very insufficient. Garages have to be built to accommodate all motor lorries and rooms for keeping stores. This cannot be put off any longer in the interests of administration. If ~~there is~~ no other way is found the opening balance will have to be tapped for such purposes.

The proposals received from the Municipal Health Officer and Municipal Engineer Councillors are attached herewith. New proposals contained therein can be considered only if they are to be met from the opening balance or additional taxation imposed.

B. Lighting Account. Revised estimate for 1944-45 and budget estimate for 1945-46. The lighting account opens with a balance of Rs.3,065 in the revised estimate for the year 1944-45 as against the budgeted figure of Rs.3,520. The gross lighting tax during the year 1944-45 is estimated at Rs.30,990 as against the budgeted figure of 31,120 and during 1945-46 at Rs.30,300. The fall in the receipt in the revised estimate for 1944-45 is due to the exemption of the lighting tax on properties in extended area. The total revised expenditure for theyear 1944-45 is Rs.26,530 as against Rs.28,390 provided in the original budget. The fall in the expenditure in the revised budget is due to the fact that no expenditure could be incurred on lighting in the extended area. A sum of Rs.27,570 has been provided under ordinary expenditure for the year 1945-46. The closing balance as per revised estimate is Rs.5,855 as against Rs.5,520 and the account is expected to close at the end of the year 1945-46 with a balance of Rs.7,485/-

C. ELEMENTARY EDUCATION ACCOUNT. Ordinary.

The Elementary Education account ordinary opens with a balance of Rs.8,238 in the revised budget estimate for 1944-45 against the original figure of Rs.3,200 and is expected to close with Rs.4,748 during the year 1944-45 and Rs.4,808 during the year 1945-46

Total: Rs.	90940	90690	94510

Provision is made for continuing the nine additional teachers both during 1944-45 and 1945-46.

Provision is also made for teaching prevocational subject in 3 schools. Dearness allowance at Rs.8/8/0 and 11 was paid till the end of May 1944. The increased allowance Viz Rs.10 and 13 sanctioned in G.O.No. 1593 L.A. dated the 18th July 1944 is being paid from 1st June 1944 and provision is made both in 1944-45 and 1945-46 for payment of the same. The total receipts under ordinary excluding the contribution made from the general account for the years 1944-45, and 1945-46 is Rs. 48,850 and 51,570 whereas the total ordinary expenditure is Rs. 90,690 and 94,510 respectively.

The Government while reviewing the budget estimate for 1944-45 have remarked that the total general ordinary receipts fall short of the general total ordinary expenditure by Rs.10,690. The main reason for the deficit is due to the transfer of a large sum from general account to Elementary education account as the receipt under Elementary Edn. is insufficient to meet the ordinary expenditure. The Deputy Inspector of Municipal Councils also had pointed out in his last inspection notes and proposed for increasing rate of tax to make the fund self supporting without necessitating such a large contribution from the general account. All the departmental buildings in which schools are housed require extensions and additional equipments while rented buildings are very unsatisfactory. If the buildings and equipment are to be brought to a satisfactory standard the elementary education fund will have to be considerably improved at heavy cost which can be no longer be met from general funds. Hence the advisability of enhancing the education tax from 1945-46. by another 1½ % per half year may be considered.

2. Revised Estimate for 1944-45, and Budget Estimate for 1945-46 with connected statements and the Memorandum thereon.

The increase in expenditure including the excess expenditure over scavenging tax as well as the high rate of contribution from the General to the elementary education funds, is mainly due to the payment of dearness allowance as per rates prescribed by the Government. Even though the receipts fall short of expenditure the opening balance will help the Council to tide over the war conditions without recort to additional taxation if new items of expenditure of a capital nature are limited to the indispensable minimum for the duration of the war.

In this connexion, we would recommend that the attention of Government may be invited to the suggestion made by the Corporation to divert a portion of the General Sales tax collected in this town by the Provincial Government to meet the extra burden of dearness allowance. Further certain activity carried on in the town as a result of war conditions and in furtherance of war effort such as manufacture and transport of tiles, supply of firewood to the factories, transport of timber, transport of rice to the South Kanara Central Co-operative Wholesale stores by means of very heavy lorries have thrown an extra burden of expenditure on the maintenance of municipal roads. The General Sales tax on these activities, even if a portion of it is diverted or contributed to the General revenues of this municipality, will amply recompense the municipality for extra burden thrown as a result of the present conditions without necessitating any additional taxation.

The draft budget with the correction slip now placed before the committee may be approved.
